

Olympus Stylus Tough TG-2 iHS Strap Eyelet Casing Replacement

(Prerequisite Strap Eyelet Casing)

Written By: Amanda

INTRODUCTION

Prerequisite Only

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Strap Eyelet Casing

- Locate the strap eyelet side of the camera and remove the 2 Phillips #00 5.3mm screws in the handle.
- Using your fingers, take off the handle, the black casing underneath, and gently wiggle out the shiny black casing below that.

Step 2

- On the bottom of the camera, remove the single Phillips #00 3.5mm screw from the casing below the grip.
- Using a plastic opening tool, gently pry the Olympus grip up and remove it.

To reassemble your device, follow these instructions in reverse order.
